

THE FIRST COMMUNITY COIN OF SOLANA

LAMPAPUY

Lampapuy is the way to express humor, creativity,
and social commentary through \$LPP

To Become the ONE and ONLY Solana Community Coin

VISION

A team of Web3 enthusiasts have recently initiated Lampapuy, the project for the Real Solana Community and \$LPP is the First Solana Community Coin.

We emphatically prefer not to refer to it as a "meme coin" but as **the Solana Community Coin**. Our focus is on building the **community first** and then **developing utility**.

LAMPAPUY COMPONENTS

Based on top of the four pillars of Lampapuy, Lampapuy consists of four components:

1. LPP Coin: LPP coin being the livewire of Lampapuy will be rewarding its community, bringing a new flair and feeling to the Solana ecosystem. This will yield voting power to the community.

2. Lampa PFP NFT: What would a unique community driven project be without key holders of an identity driven NFT PFPs. In the dynamic realm of non-fungible tokens (NFTs), LampaNFT stands as a beacon of artistic ingenuity and technological advancement. A product of collaboration with the esteemed Bictory, this collection transcends conventional boundaries, presenting a limited series of 10,000 hand-drawn 3D creatures, each endowed with distinctive traits.

3. LPP Domain Name: (LPP DNS) will lead the advancement of decentralization and empowering users (Lampas), LPP DNS emerges as a crucial use case within the Lampapuy ecosystem. By providing a decentralized, censorship-resistant domain naming system, Lampapuy aims to foster a more inclusive and equitable internet infrastructure for all.

4. Exclusive NFT Marketplace: This strategic move not only expands the utility of Lampapuy but also fosters a vibrant ecosystem where digital art and collectibles thrive, creating new avenues for expression and value exchange within our community. Join us in redefining the future of ownership and creativity in the digital age with Lampapuy's NFT marketplace.

\$LPP COIN ALLOCATION

Token ticker: **LPP**

Total supply: **One Billion**

FDV: **\$10M**

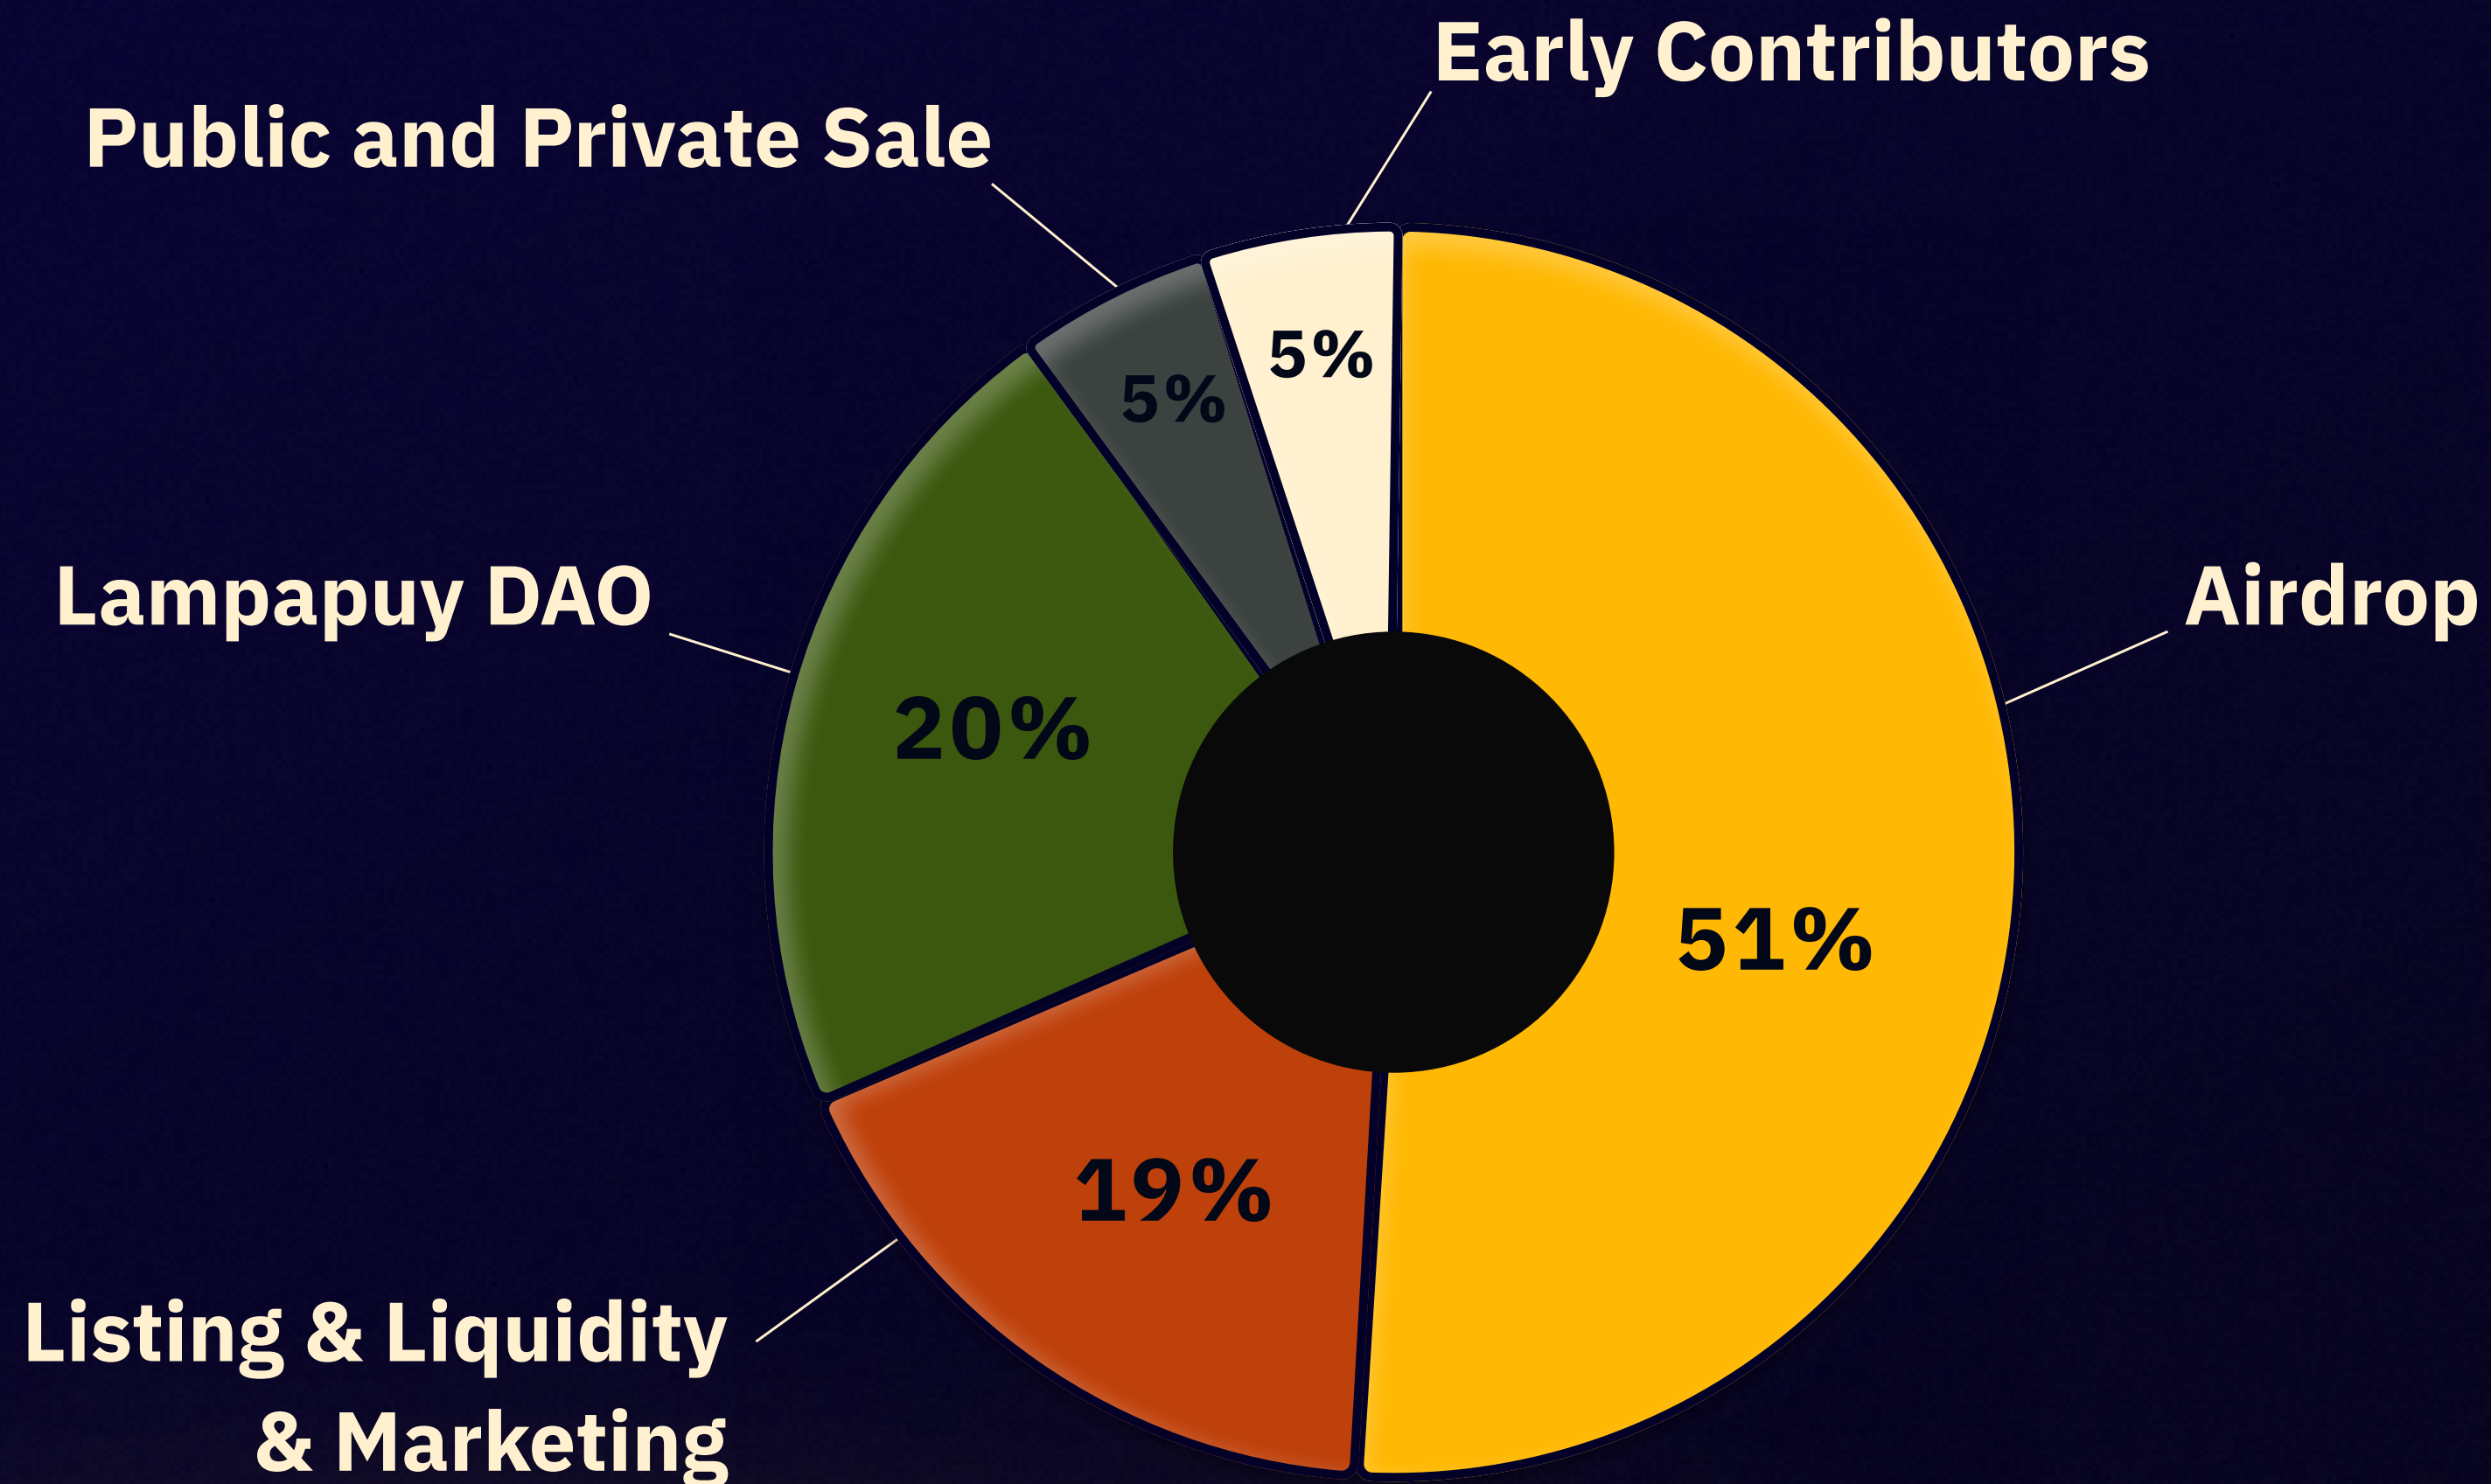

IMC: **\$1.5M**

Platform: **Solana**

Token type: **SPL**

Explorer: **Not Minted Yet**

**Lampapuy DAO will raise initial funding (for development) by selling its portion of allocation.*

We will fairly **airdrop 51% of \$LPP Coins** to Lampapuy Community Members of X, Telegram, Discord, Projects and communities of Solana and Lampapuy project users.

We acknowledge that the last 30 months were marked by a brutal bear market, and many of us experienced losses due to crypto hacks, frauds, failed projects, pump & dumps. **Consider \$LPP as a payoff for still believing in Solana, Bitcoin, Blockchain, and being here.**

LAMPAPUY DAO

Lampapuy DAO will manage everything through community voting and discussions.

DAO members will be public and always engage with the community on decision making of major development and activities.

We envision Lampapuy as a community project where we make \$LPP a Utility and Governance Coin. We plan to either build new projects from scratch or acquire failed projects and relaunch them as part of the Lampapuy Ecosystem. This includes DEX, NFT Marketplace, Domain Name Service, Staking, Launchpad, Gaming, and more

PROFIT DISTRIBUTION

25%

of the profit from these projects
will be used to buy back & burn \$LPP

50%

will be spent to buy \$SOL for Lampapuy DAO
reserve and distribute staking rewards to
\$LPP stakers

25%

will be allocated for DAO
and development expenses
